

Your  
New  
Home  
should be made  
artistic, sanitary  
and livable.

These walls should be Alabastined in the latest,  
up-to-the-minute nature color tints. Each room should  
reflect your own individuality and the treatment  
throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be  
made just as attractive, just as sanitary, through the intelligent use of

## Alabastine

Instead of kalsomine or wallpaper

How much better, when you have a new home, to start right in to have to correct errors afterward from former treatment with other materials, when you come to the use of Alabastine, as does nearly every one sooner or later.

Once your walls are Alabastined you can use any material over it  
should you desire, but having used Alabastine you will have no desire for  
any other treatment.

Alabastine is so easy to mix and apply—so lasting in its results—so  
absolutely sanitary—and so generally recognized as the proper decorative  
material in a class by itself that it is becoming difficult to manufacture fast  
enough to supply the demand.

Alabastine is a dry powder, put up in five-pound packages, white and  
beautiful tints, ready to mix and use by the addition of cold water, and with full directions  
on each package. Every package of genuine  
Alabastine has cross and circle printed in red.

Better write us for hand-made color designs and  
special suggestions. Give us your decorative problems  
and let us help you work them out.

A Dusty Worm.

"Why don't you marry him?"  
"He has such freakish ideas. Says  
he's a worm of the dust."

"But as long as he is a worm with  
the dust, what do you care?"—Boston

Every druggist is authorized to refund  
your money if you are not perfectly  
delighted with Calotab.—(Adv.)

KING HAD SOME IMAGINATION

Wonderful Story of "Waterless Sea"  
Would Have Done Credit to  
Baron Munchausen.

Prester John as a title was like to  
whole kings of who reigned in the  
East and in Ethiopia in particular.  
One writer of long ago sets Abyssinia  
as the kingdom of Prester John. Abyssinia  
used to be called "Middle India."

It is related that before the year  
1241 a letter was addressed by Prester  
John to Manuel Comnenus, emperor of  
Constantinople, saying that in Prester  
John's country there is a "water-  
less sea," which now have ever  
crossed. It consists of tumbling bil-  
lows of sand, never at rest, and con-  
tinues to be most excellent flavor.

Three days' journey from the coast  
of the sand sea is a mountain whence  
rolls down a "waterless river," con-  
sisting of small stones, which crumble  
into sand when they reach the sea.

Whoever Prester John may have  
been, if he invented that story, he  
certainly possessed a vivid imagina-  
tion and considerable originality.

Kindness.

When the Brazen Hussy moved into  
the house next door, the "Upifiter"  
said: "Of course, I can't exactly call.  
But if she comes out on her veranda  
to sit, I shall smile at her. The only  
way to get a hold on people like that  
is to be friendly."

And the Brazen Hussy looked at the  
"Upifiter" next door and said to her-  
self: "Poor fright! I suppose it  
might as well speak to her. Perhaps  
after a little she will let me show  
her how to do her hair."—Life.

No Time to Lose.

Timothy approached his lady love  
timidly, bearing a big fish, which an-  
nounced its presence subtly, but unmis-  
takably.

"Oh, what a fine cod!" exclaimed  
Moria. "Wherever did you get it?"

"A man at the market gave it to me  
last week for helping him," replied  
Tim. "I've been keepin' it for your  
birthday."

"But my birthday ain't till tomor-  
row," the girl told him coyly.

"I know, Marlin, but I sort o' won-  
dered if you'd mind keepin' it to day,  
as—well, me and—the fish is  
gettin' kind of impatient."
